

# 2012 Illinois Council of Trout Youth Conservation and Fly Fishing Camp

The Illinois Council of Trout Unlimited will again be holding our Conservation & Fly Fishing Camp. This year's camp will be held along the banks of the Au Sable River from July 29th to August 3rd. Campers learn more about conservation and fly fishing in a week at camp than most of us learn in a lifetime. It is an enjoyable and educational experience. During

a week campers will learn about many aspects of conservation and preserving cold water fisheries. The fly fishing instruction includes fly casting (roll cast, overhead fly cast, false casting, shooting line, even the double haul!), fly tying, knots, basic entomology and what fish eat, reading the water, safe wading techniques, catch and release, leave-no-trace, and other outdoors and fly fishing related skills. Most importantly, camp is fun!!!

The camp accepts young men and women ages 13 through 18. The camp is all inclusive and provides transportation to and from the camp, food and lodging. Instruction is provided by Trout Unlimited volunteers and by faculty from Midwestern Univer-

sities and local professionals. All necessary gear is provided by the Illinois Council of Trout Unlimited for the campers to use while attending the camp. Campers will also be given a fly rod and reel outfit to take with them at the conclusion of the camp.

Consider the Conservation and Fly Fishing Camp for your daughter, son, niece, nephew or grandkids. The cost of the camp is \$625. Sponsorship is available for campers with financial need. Applications and additional information can be obtained by contacting Greg Prosen (g.s.prosen@sbcglobal.net) or Barry Coddens at (bac248@northwestern.edu).
